Address: Cairo, Egypt | Portfolio: <https://mohamed1232007.github.io/Portfolio>

Career Objective

Motivated **Full-Stack Web Developer** and MIS student with expertise in building responsive, scalable, and secure web applications. Proficient in crafting dynamic user interfaces with **React** and **TypeScript**, as well as designing robust backend REST APIs using **Node.js**, **Express**, **MySQL**, and **MongoDB**. Skilled in implementing secure JWT authentication, state management, and modern database solutions.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL.
- **Frontend Development:** React.js, React Native, Tailwind CSS, Context API, EJS, Vite.
- **Backend Development:** Node.js, Express.js, RESTful APIs, JWT Authentication, Bcrypt Hashing.
- **Databases:** MySQL, MongoDB, Mongoose, XAMPP.
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Vercel, Netlify, AWS, Expo.

Projects

Full-Stack Authentication & User Management API

- Built a secure authentication backend using **Node.js**, **Express**, and **MySQL** (via XAMPP).
- Integrated password encryption using **Bcrypt** and user authorization via **JSON Web Tokens (JWT)**.
- Tested and validated RESTful API endpoints using Postman.

AI Chatbot Application | *React.js, Context API, REST APIs*

- Developed an interactive AI chatbot web app using React.js and modern state management.
- Integrated API services to process real-time user prompts and render fluid dynamic UI responses.
- Deployed the full application on Vercel with clean, maintainable component structure.

Advanced E-Commerce Platform | *React, TypeScript, Tailwind CSS, AWS*

- Built a type-safe, responsive e-commerce web platform using React and TypeScript
- Implemented complex state handling for cart management, filtering, and seamless product navigation.

Experience

Full-Stack / Frontend Developer | *Freelance & Personal Projects*

- Developed and deployed full-stack web applications and responsive landing pages using React, Node.js, and SQL/NoSQL databases.
- Designed and integrated secure RESTful APIs with encrypted authentication systems.
- Transformed UI/UX designs into clean, maintainable code with strict version control via Git & GitHub.

Education

Obour Higher Institute for Management & Computers

Bachelor of Management Information Systems (MIS)

Certifications & Languages

- **Front-End Development Certificate** – Google Developer Groups (GDG)
- **Arabic:** Native | **English:** Intermediate (B1)
