PROFESSIONAL SUMMARY

Full-Stack Web Developer and MIS student focused on building responsive, scalable and secure web applications. Experienced in developing modern user interfaces with React, Next.js and TypeScript, and in designing RESTful backends with Node.js, Express, MySQL and MongoDB. Built and deployed real-time platforms using Socket.io, secure JWT authentication with role-based access control, and clean, maintainable component architecture from design to deployment.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
- **Frontend:** React.js, Next.js (App Router, SSR/SSG, API Routes), Tailwind CSS, Context API, EJS, Vite
- **Backend:** Node.js, Express.js, RESTful APIs, Socket.io (WebSockets), JWT Authentication, Bcrypt Hashing, RBAC
- **Databases:** MySQL, MongoDB, Mongoose, MongoDB Atlas, Firebase Firestore
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Vercel, Netlify, AWS

EXPERIENCE

Full-Stack / Frontend Developer | *Freelance & Personal Projects — Cairo, Egypt*

- Developed and deployed full-stack web applications and responsive landing pages using React, Next.js, Node.js and SQL/NoSQL databases.
- Designed and integrated secure RESTful APIs with encrypted authentication and role-based access control.
- Translated UI/UX designs into clean, reusable components with strict version control via Git and GitHub.

PROJECTS

QuickPulse - Real-Time Messaging & Support Platform | *React, Node.js, Express, Socket.io, MongoDB, JWT*

- Engineered a low-latency real-time chat and customer-support system with bi-directional messaging over WebSockets.
- Implemented secure JWT cookie authentication with token versioning to support instant session revocation.
- Built an integrated ticketing system and an admin dashboard for managing active sessions.

TechStore OS - Retail & Maintenance Operations System | *React, Node.js, Express, MongoDB Atlas, JWT*

- Developed a full-stack management system for electronics retail and repair shops, with an Arabic-first interface.
- Delivered dynamic inventory management, maintenance ticket tracking and Role-Based Access Control (RBAC).

Advanced E-Commerce Platform | *React 19, TypeScript, Vite, AWS*

- Built a type-safe, fully responsive e-commerce platform with reusable components and dynamic product fetching.
- Implemented complex state handling for cart management, product filtering and seamless navigation.

Role-Based Admin Dashboard | *Node.js, Express, MySQL, JWT, Bcrypt*

- Built a full-stack dashboard with separate user and administrator interfaces and strict protected routing.
- Secured the API with Bcrypt password hashing and JWT authorization, validated end-to-end with Postman.

EDUCATION

Bachelor of Management Information Systems (MIS) | *Obour Higher Institute for Management & Computers*

CERTIFICATIONS & LANGUAGES

- Front-End Development Certificate — Google Developer Groups (GDG).
- Languages: Arabic (Native), English (Intermediate — B1).
